

#### WHAT THE PUNDITS ARE SAYING:

*"More than just a name to snicker at after you've had a few...conversation stopping melodies, the quartet is one of the most promising ensembles on Vancouver's pop horizon."* - The Georgia Straight

*"Mixing the sophistication of Steely Dan with the wankery of Max Webster... less a band than a well-choreographed weather pattern, the 'Ass' know how to get things done, and get it done right - and if not right, then well beyond repair."*

- The Vancouver Courier
